**Remarks:**

\*The USCG has marked deeper water outside the Federal channel limits which may provide adequate navigation through the Pass.

1. Shoaling located across entire channel from 4,400 feet seaward of and extending to green Light-1, and then again encompasses entire channel from 700 feet east of green Light-1 to green Daybeacon-3. Shoaling then continues throughout remainder of Cut-1, from red Daybeacon-4 to red Daybeacon-8. Least depths located in vicinity of red Buoy-4A.
2. Shoaling encompasses most of reach.
3. Extreme shoaling in north corner of channel opposite red Daybeacon-20 and red Daybeacon-22. Shoaling also located along south side of channel between same markers.
4. Shoaling along south side of channel beginning 400 feet east of red Daybeacon-26 and extending to 300 feet west of red Daybeacon-48. Shoaling extends into channel approximately 60 feet in most areas.
5. Shoaling along all sides of basin. Deeper water exists in middle of basin near red Daybeacon-28. Least depths occur at east end of basin.
