Dear Mr. Clough:

This is in reference to the email dated July 30, 2007, regarding a transfer of Department of the Army permit number SAJ-2004-3561(NW-AAZ) originally issued to Mr. John Mitnik of the South Florida Water Management District on July 10, 2007. The project is for the construction of Pump Station 7 and improvements to the C-1 and C-51 Canals. The project is located at the intersection of State Road 80 (Southern Boulevard) and Flying Cow Road in Wellington, Sections 36 and 31, Township 43 South, Range 40 and 41 East, Palm Beach County, Florida.

The U.S. Army Corps of Engineers has recorded the transfer of this permit in our computer database and will make your notification part of the official permit file. Please be advised you are now responsible for adhering to all the conditions and limitations of the permit. Although all works authorized must be completed within a specific time limit, the permit itself with its limitations, does not expire.
