FOR IMMEDIATE RELEASE

Tentatively selected plan on Tamiami Trail project available for review
Public meeting scheduled for April 22

Jacksonville, Fla. -- A draft report on the tentatively selected plan for the Tamiami Trail Modifications feature of the Modified Water Deliveries to Everglades National Park project is available for public comment.

The U.S. Army Corps of Engineers, Jacksonville District, has prepared the draft Limited Reevaluation Report and Environmental Assessment (LRR/EA) for the Tamiami Trail project which reanalyzes the plan approved in the 2005 Revised General Reevaluation Report (RGRR) and investigates additional, less costly alternatives. The Tamiami Trail Modifications feature identifies alterations to the Tamiami Trail that would improve water flow into Everglades National Park.

A public meeting is scheduled for Tuesday, April 22, 2008, 7 p.m. to present the plan and take comments from the public. The meeting will be held at Florida International University, Pharmed Arena, 11200 SW 8th St., Miami Fla. The 30-day comment period ends May 9, 2008.
