

FACT SHEET
DERP-FUDS Pinecastle Jeep Range
 Defense Environmental Restoration Program (DERP)
 Congressional District: 9, 10

1. DESCRIPTION

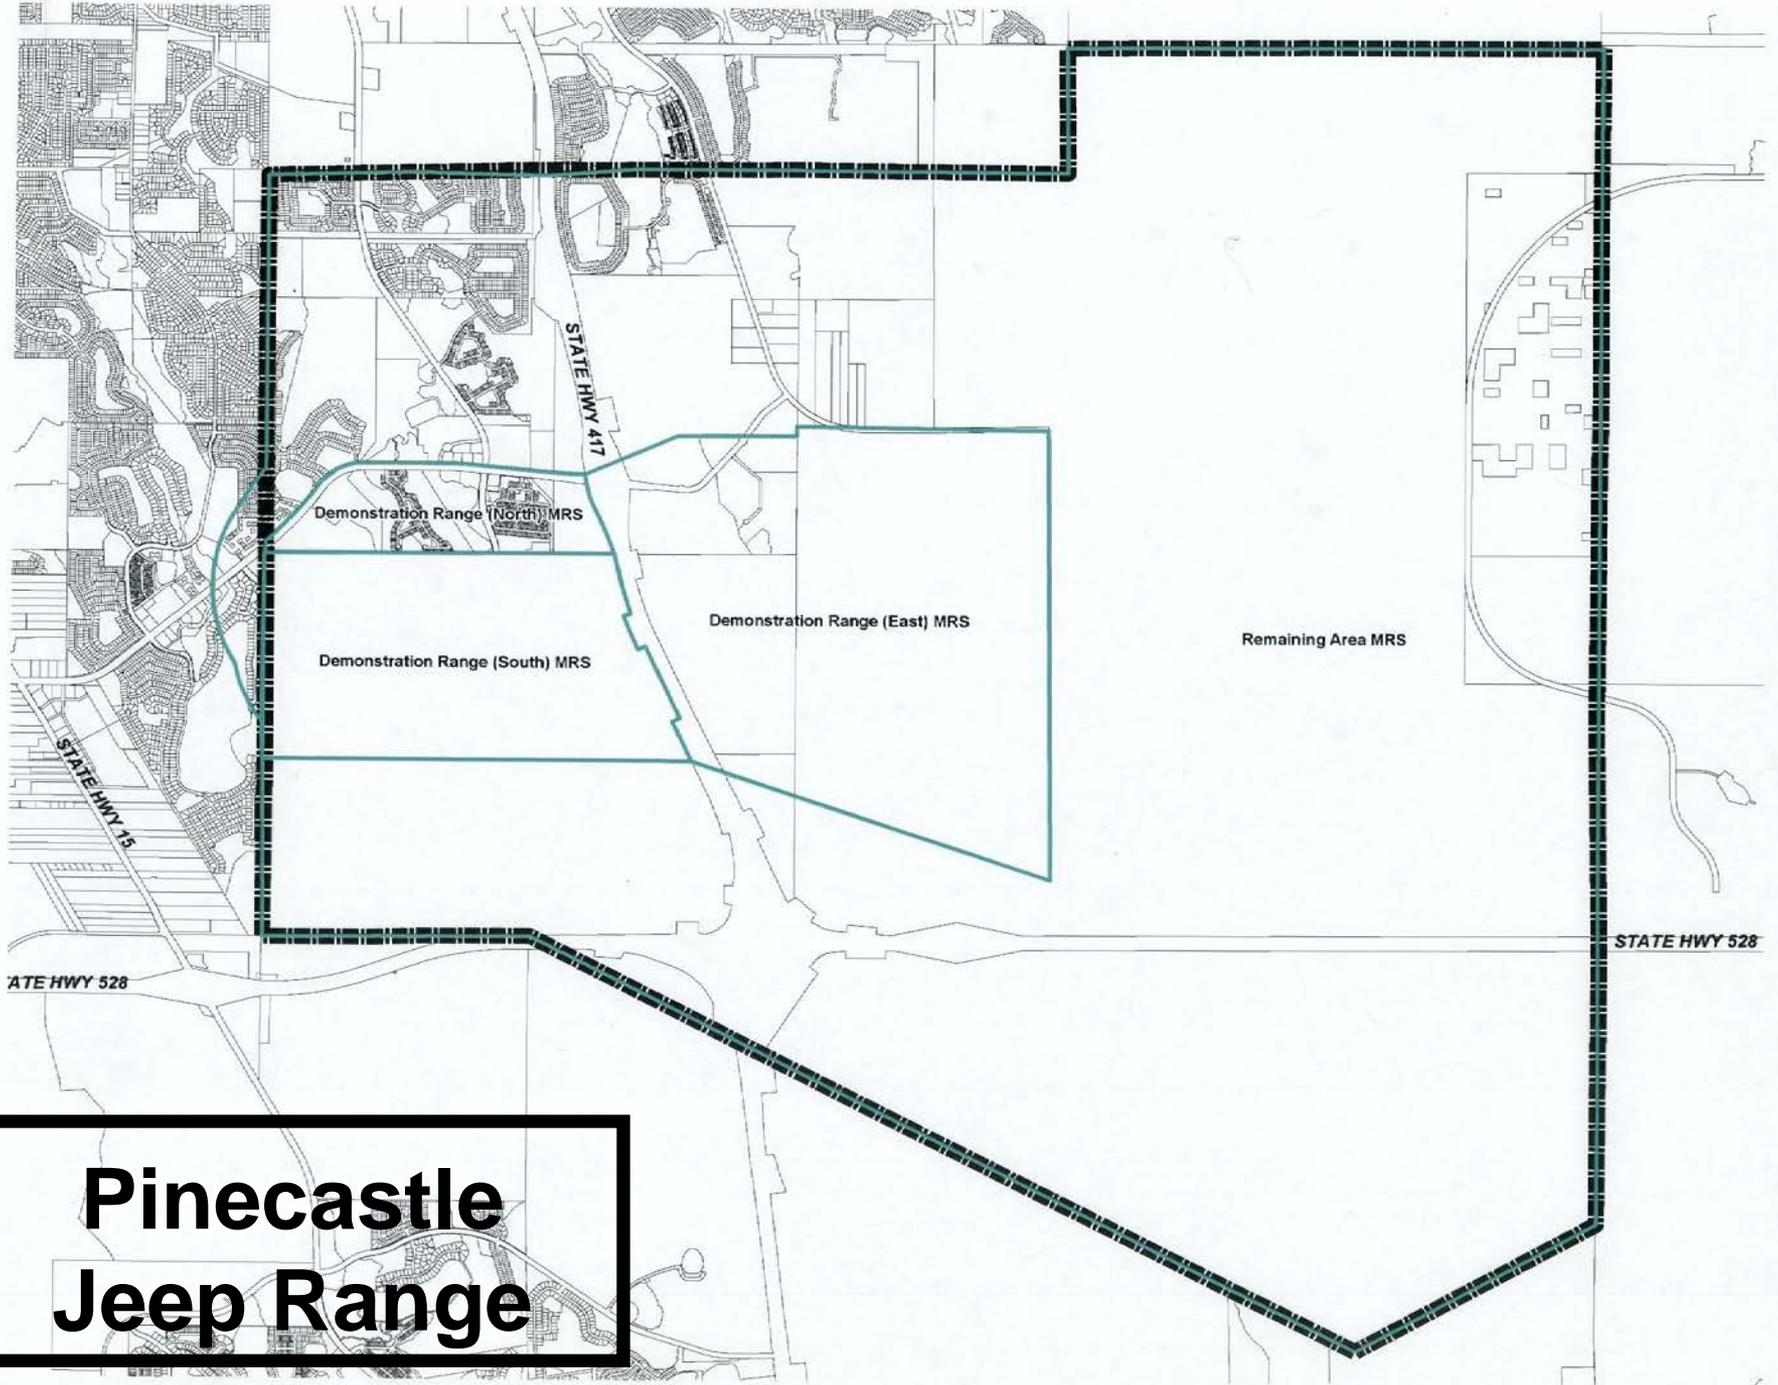

Appropriated by the Environmental Restoration-Formerly Used Defense Sites (ER-FUDS) account under the Military Munitions Response Program (MMRP). The Pinecastle Jeep Range (PJR) is a Formerly Used Defense Site (FUDS) totaling 12,483 acres in Orlando (Orange County), Florida. In 1943, the Army Air Corps leased and established PJR as an off-site range for the Army Air Forces School of Applied Tactics headquarters at Orlando. The range uses included small arms training, air tactics evaluations and demonstrations of strafing, bombing, and air-to-ground rocket firing. In 1946 the Pinecastle Jeep Range was declared surplus and all leases were terminated by August 1948. The site is currently owned by several local government agencies and private individuals for residential, highway/expressway, landfill, and undeveloped pasture land use. Ordnance that may be encountered at the former range include: small arms, 2.36-inch (bazooka) to 11.75 inch aerial rockets, 20mm to 120mm artillery rounds, 60 & 81 mm mortar rounds, and various practice, incendiary and high explosive bombs. Munitions and explosives of concern (MEC) appear to be concentrated on the demonstration portion the site with other areas exhibiting no explosive hazard (not a range or only small arms range use).

2. FUNDING

Estimated Total Cost	\$24,225,900
Estimated Cost to Complete (MMRP)	\$8,043,900
Allocated thru FY14	\$16,112,000
Allocation for FY15	\$70,000

3. STATUS

The Remedial Investigation/Feasibility Study (RI/FS) to determine the nature and extent of the munition hazard present is complete. The site was realigned into four Munitions Response Sites (MRS) as follows: Demonstration Range North MRS, Demonstration Range South MRS, Demonstration Range East MRS, and Remaining Area MRS. The Decision Documents for the Demonstration Range North MRS, Demonstration Range East MRS and Remaining Area MRS have been finalized, signed, and approved. The Decision Document for the Demonstration Range South MRS is under review. The sites are in the Remedial Action (RA-C) and Long Term Management (LTM) Phases. Remedial Action was planned for the Demonstration Range South in FY 14; however, the property owner refused to sign a Right of Entry (ROE) for that phase. Subsequent communication with the property owner yielded no results so work cannot proceed under the FUDS program until such time there is a signed ROE.
