

FACT SHEET
Duval County, FL BEC
 Construction(C)
 Congressional Districts: 4, 5

1. DESCRIPTION

Duval County is located on the northeast Coast of Florida at Jacksonville. The project was authorized by House Document 519/89/2 in 1966. The project provides for initial beach fill and periodic nourishment, as needed, for the 10 mile segment extending from the St. Johns River south to the Duval-St. John's County line. The design consists of a 60-foot-wide berm at an elevation of 11 feet above mean low water. A Section 934 (PL 99-662) reevaluation study approved February 1992 by ASA (CW), extended Federal participation in cost sharing until 2028.

2. FUNDING

Estimated Total Cost	\$110,329,000
Estimated Federal Cost	\$65,664,000
Allocation thru FY15	\$32,717,526
Allocation for FY16	\$0
President's Budget FY17	\$0

3. SPONSOR

City of Jacksonville
 Department of Public Works
 220 East Bay Street
 Jacksonville, Florida 32202-3493

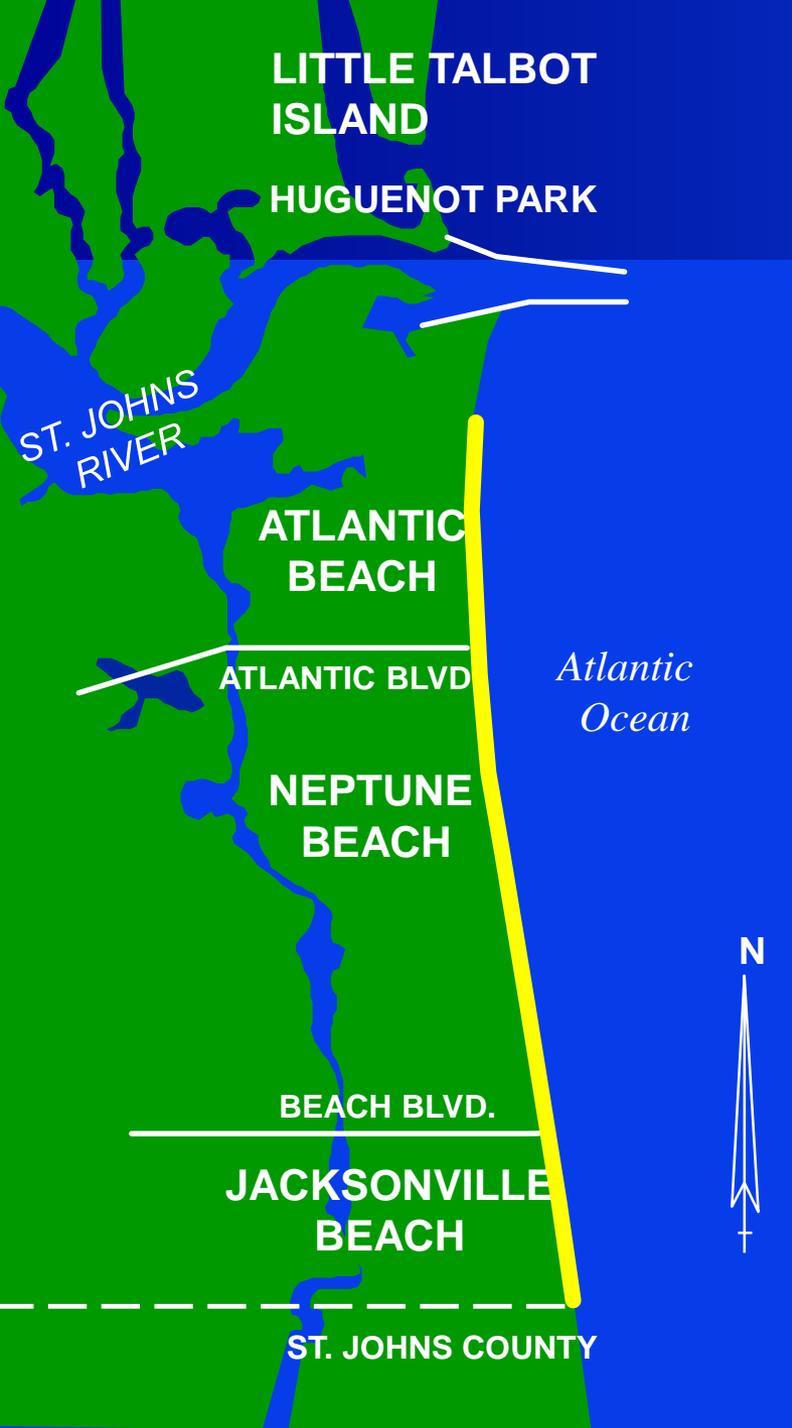

4. STATUS

The project received \$13.6 million as part of the FY15 workplan. These funds will be used to award the next scheduled renourishment contract in June 2016. The PDT is currently working on the draft plans/specifications and the BOEM tri-party agreement for use of borrow source sands in federal waters. This contract will place approximately 700,000 cubic yards of sand on portions of Altantic, Neptune and Jacksonville beaches.
