

FACT SHEET  
**Nassau County, FL**  
 Construction (C)  
 Congressional District: 4

### **1. DESCRIPTION**

Nassau County is the northernmost county on the east coast of Florida. Amelia Island forms the eastern border, stretching 13 miles south from the St. Mary's River to the Nassau River. The Water Resources Development Act of 1988 authorized the Nassau County, Florida shore protection project. The authorized project area is located on the Atlantic Shorefront of Amelia Island in Nassau County. The project provides for initial fill for 3.6 miles of shoreline and periodic nourishment along 4.3 miles as needed. Initial cost, as estimated in the General Reevaluation Report (GRR), is \$16.2 million, of which \$12.7 million is the Federal share of the initial cost. The project cost share reflects Section 111 cost mitigation for downdrift impacts of the Federal navigation project.

### **2. FUNDING**

Estimated Total Cost	\$351,200,000
Estimated Federal Cost	\$277,500,000
Allocation thru FY15	\$16,642,757
Allocation thru FY16	\$1,000,000
President's Budget FY17	\$0

### **3. SPONSOR**

City of Fernandina Beach  
 Fernandina Beach, Florida 32034

### **4. STATUS**

The next scheduled renourishment continues to be delayed due to lack of Federal appropriations. To alleviate concerns dredged material from Kings Bay Naval Base will be placed on the northern portion of the Federal project utilizing regional sediment management however this does not address the overall volume needed for the project.
