

FACT SHEET
COMPREHENSIVE EVERGLADES RESTORATION PLAN
Broward County Water Preserve Area
 Construction General (C)
 Congressional Districts: 20, 21, 22, 23, 24, 25

1. DESCRIPTION

This project is comprised of three (3) components: C-11 Impoundment, C-9 Impoundment, and Water Conservation Area (WCA) 3A/3B Levee Seepage Management conditionally authorized by Water Resource Development Act (WRDA) 2000. The impoundment areas will 1) aid in reducing seepage from the WCA 3A/3B Seepage Management Area 2) provide groundwater recharge 3) provide additional water supply to urban areas and 4) help prevent saltwater intrusion. The WCA 3A/3B Levee Seepage Management system will focus on seepage reduction by allowing higher water levels in the L-33 and L-37 borrow canals. The purpose of the C-11 Impoundment is to direct runoff from the western C-11 drainage basin into the impoundment in lieu of pumping the untreated runoff via S-9 Pump Station into the WCA 3A. If water is not available in the impoundment area to perform these functions, S-381 will be opened to allow seepage water to recharge the basin and prevent excessive dry outs. In addition, seepage will be collected and returned to the impoundment area. The purpose of the C-9 Impoundment is to pump runoff from the western C-9 drainage basin and diverted water from the western C-11 Basin into the impoundment. As a result, this impoundment will assist in reducing seepage from the WCA 3A/3B Levee Seepage Management.

2. FUNDING

| | |
|-------------------------|---------------|
| Estimated Total Cost | \$866,707,000 |
| Estimated Federal Cost | 433,354,000 |
| Allocation thru FY13 | 12,765,000 |
| Carry In for FY14 | 0 |
| Allocation for FY14 | 23,500 |
| President's Budget FY15 | 0 |

3. SPONSOR

South Florida Water Management District
 3301 Gun Club Road
 West Palm Beach, Florida 334

4. STATUS

A draft PIR was completed in 2007. The Record of Decision was signed on 25 October 2012 and the Chief's Report was transmitted to Congress on 26 October 2012. This project is currently waiting authorization after completion of the PIR. FY 2012 funding was used to update the PIR. Preliminary design work is complete and the PIR has been updated to include changes in cost certification due to a minor change in the footprint in the recommended plan. There is no funding for FY 2014.
