

FACT SHEET
Flagler County Shore Protection Project
 Investigations (I)
 Congressional District: 6

1. DESCRIPTION

Flagler County is located on the northeast coast of Florida approximately midway between the Florida/Georgia state line and Cape Canaveral. The county is bounded to the north by St. Johns County and to the south by Volusia County. Flagler County has approximately 18 miles of sandy shoreline, all of which are authorized for Federal study.

The authority for conducting this Feasibility Study is contained in House Resolution 2676 adopted May 22, 2002:

“Resolved by the Committee on Transportation and Infrastructure of the United States House of Representatives, that in accordance with Section 110 of the Rivers and Harbors Act of 1962, the Secretary of the Army is requested to review the feasibility of providing shoreline erosion protection, hurricane and storm damage reduction, and related purposes to the shores of Flagler County, Florida.”

The project delivery team recently selected a tentatively selected plan (TSP) that is the National Economic Development (NED) plan, consisting of a ten foot dune extension including a 10’ sacrificial berm that covers 2.6 miles of shoreline in Flagler Beach and mainly prevents damage to SR-A1A.

2. FUNDING

Estimated Total Cost	\$3,236,000
Estimated Federal Cost	\$1,767,000
1/ Allocation thru FY13	\$1,380,407
Allocation for FY14	\$390,000
President’s Budget FY15	\$0
1/ <u>incls \$98,305.03 Recon</u>	

3. SPONSOR

Flagler County
 1769 E. Moody Blvd. Suite 309
 Bunnell, FL 32110
