OKEECHOBEE WATERWAY ROUTE 2 FLOATING VEGETATION CREATING HAZARDOUS NAVIGATION

REFERENCE:

- a. 33 CFR Navigation and Navigable Waters

1. Notice to Navigation

Notice is given that the U.S. Army Corps of Engineers is advising commercial and recreational vessels to use extreme caution traveling the Okeechobee Waterway Route 2 from Port Mayaca to Clewiston and Rim Canal from Clewiston to Moore Haven due to floating vegetation blocking sections of canal. Specific locations currently affected are Torry Island and Culvert C-1A between Clewiston and Moore Haven. These vegetation islands are normal as lake level rises. Corps of Engineers is working to clear blocked areas as quickly as possible when found. Point of contact is Carl Williams at 863-983-8101.
