Jacksonville District Navigable Waters Lists

October 5, 2017

The waters named below were those identified in the first preliminary increment of an effort to update the Jacksonville District Navigable Waters List (List). Some of the waters named below are duplicated on that List. Some of the waters below are in addition to that List. There may be additional waters not listed either below or on the List.

The District makes no claim that these lists are complete or completely accurate. These lists are for regulatory reference purposes only. They are not a substitute for a jurisdictional determination (JD). It is imperative that you contact the appropriate Regulatory Permit Section for a determination on whether the Corps is able to ascertain if a particular project falls within or outside of section 10 authority.
