

WPA Feasibility Study
Multi-Agency Design Team Meeting

Location: Cafeteria Conference Room in Building B-1

Date: October 26-27, 1999

Time: 9:30 - 5:00

AGENDA ITEMS:

Introductions

Logistics

- When to end meeting on 26th
- When to start and end on 27th
- Minutes of Meeting
- Names, Numbers and Emails

Other Items to Include in Agenda

Order of Agenda Items

1. Team Purpose

Mission Statement

Develop alternatives to model

Identify, compile issues/questions that need to be addressed

Document features and/or alternatives considered or eliminated

2. Study Area Features

Purpose

- Big Picture - General Restudy Objective and the WPA Components
- Site Specific
- **WPA White Paper**

Individual Components Requirements

- **Review USACE Revised D13R Designs within sub-teams**
- **Review output from sub-regional models (if available) and evaluations from other teams. Identify problems with D13R in its current form.**

3. Models

Modflow 500'x500' grid

- What will it do
 - What it cannot do
 - What detail of design is required by modelers per alternative
 - What detail of design is of no use to the modelers per alternative
- Other models that may be used to address concerns

4. Coordination

- What has taken place (FPL, FDOT and others)
- What will be taking place

5. Alternatives

- **Design Team Process**
 - **Inputs - Natural Areas sub-team, LEC sub-team, Water Quality sub-team**
 - **Outputs - RECOVER, 2x2 modelers (HSM, Ken and Ray)**
- **Alternative Study Loop**
 - Multi-Agency Design Team Presents Alternative Design to WPA Full and then Team Modelers
 - Modelers Takes Alternative Design and Revises Model
 - Model Output is Presented to Multi-Agency WPA Team
 - Design and Cost Estimate of Modeled Alternative Developed
 - Design Team Develops next Alternative and Presents to WPA Full and then Modelers
- Alternative Development Procedure
 - Is it appropriate to create sub-teams and group components with appropriate team members
- Areas that can have alternatives
 - Site specific objectives of alternatives that consider the objective of the area/feature
- Areas that cannot and or will not have alternatives due to feasibility/constructability

6. Site Specific

- **Begin to develop Component Alternatives**
- Northwest Wellfield (this discussion will take place on Wednesday at 9:00 so that interested Miami and Dade folks can be present and participate)
 - Design Considerations and Concerns

Wrap Up (12:30)

Review Task

Next Meeting and the future

End Meeting at 1:30 (Corps folks need to catch 3:40 plane in Ft. Lauderdale)
