Mr. Beter,

I received an email from a friend that detailed a renourishment plan for the Palm Beach / Manalapan area. The email suggested that the dredging area would be close to some of our more sensitive areas of colonized coral reef. I would like to know where I could find more information on this plan. Obviously, I am concerned about any project that could potentially negatively impact the reef structures that are already stressed.

Thank you,

Jim Abernathy
