My concern is the beach erosion in our area (south of the
Palms W with bridge),
which is now becoming an increasingly urgent
problem.

Florida's economy + its future is dependant on tourism
+ the environment, particularly the lovely fabled
beaches.

We need - we are dependant on beautiful, viable,
thriving beaches.

The erosion is relentless - we are deeply
concerned about the future of our beaches.

Our economy, our real estate values, our future
property is dependent on beach renourishment.

Finally, it is vital for the security of our properties +
our entire beach structure - as a basis to storm damage -
that our beaches be renourished + brought back to
their former beauty + protective significance.
