DECLARATION OF INSPECTION (VIRGIN ISLANDS)

To Meet Requirement of 33 CFR 156.150

Facility Name:	Facility Address:		
Vessel Name:	Date of Transfer:		
MOORINGS:		Yes	<u>No</u>
Are mooring lines strong enough t expected conditions of surge, cur			
Are mooring lines long enough to changes in draft, drift, and tide			
LOADING EQUIPMENT:			
Are hoses or loading arms long en move to the limits of its mooring			
Maximum movement will not place s arm, or transfer piping system?	train on hose, loading		
Is each hose supported in a manne on its coupling?	er that prevents strain		
Is each part of the transfer syst as necessary to allow the intende			
Has each part of the transfer sys the transfer operation, been chec securely blanked off or shut off?	ked to see that it is		
Is the transfer system connected on the receiving vessel or facili			
(NOTE: For fueling vessels the u is approved when serviced by fuel automatic back pressure shut-off	hoses fitted with an		
Is each coupling one of the follo	owing types:		
1. Full threaded connection?	,		
2. Bolted coupling?			
3. Quick-connect coupling ap	proved by USCG?		

DECLARATION OF INSPECTION (VIRGIN ISLANDS) -- Continued

Yes No

DISCHARGE CONTAINMENT SYSTEM:

Are discharge containment systems in place on both facility and vessel?

Are scupper and drains closed?

Is oil leaking from any transfer equipment?

Will containment system handle leak?

COMMUNICATIONS:

Has two-way voice communications system between vessel and facility been tested?

Has emergency shutdown system been tested and found ready to operate?

PERSONNEL:

Are persons required by Facility Operations Manual on duty?

Are personnel required by the Vessel Oil Transfer Procedure on duty?

Are any language problems involved?

If so, is a person present who can fluently speak the common languages used on the vessel and shore facility?

CONFERENCE OF PERSONS-IN-CHARGE:

Did Person-in-Charge on Facility and Person-in-Charge on vessel hold a conference?

Were the following points discussed and understood by both:

- 1. Identity of product to be transferred?
- 2. Sequence of transfer operation?
- 3. Transfer rate?
- 4. Name, title and stations of all persons participating in transfer?
- 5. Particulars of transferring and receiving systems?

DECLARATION OF INSPECTION (VIRGIN ISLANDS) -- Continued

Yes No

CONFERENCE OF PERSONS-IN-CHARGE (Continued):

- 6. Critical stages in transfer operation?
- 7. Federal, Territorial, and local rules that apply to transfer?
- 8. Emergency procedures?
- 9. Discharge containment procedures?
- 10. Discharge reporting procedures?
- 11. Watch or shift arrangements?
- 12. Transfer shutdown procedures?

LIGHTING:

If transfer operations occur between sunset and sunrise: are lights on vessel and facility working?

Does lighting adequately cover all transfer connection and working areas?

AGREEMENT TO START TRANSFER:

Are both Persons-in-Charge present?

Do both Persons-in-Charge agree to begin transfer?

The undersigned do certify that they have personally inspected or checked the items listed above and that their initials opposite each item indicate the regulations have been complied with.
