MEMORANDUM FOR RECORD

SUBJECT: Approval of the Herbert Hoover Dike Dam Safety Modification Report, Central and Southern Florida Project for Flood Control and Other Purposes

1. Reference to the Dam Safety Modification Report (DSMR), Herbert Hoover Dike, South Florida, Dated 05 August 2016.
2. The Jacksonville District has completed the DSMR as part of the Central and Southern Florida Project for Flood Control and Other Purposes. The DSMR has undergone concurrent policy and quality assurance review by the South Atlantic Division, the Dam Safety Risk Management Center, and the Headquarters U.S. Army Corps of Engineers. All comments have been resolved and necessary revisions have been incorporated into the DSMR.
3. The Herbert Hoover Dike Dam Safety Modification Report is approved contingent on the completion of the required environmental documentation.
4. The technical point of contact (POC) for the report is Dan Blaydes, Lead Engineer at 904-232-2271. The Project Manager is Timothy Willadsen at 904-232-2436. The MSC POC is Michael Wolz at 404-562-5120. The HQUSACE POC is Barbara Schuelke at 202-761-4643.
